

ANANDHAN SANKAR

SYSADMIN -(ASPIRING WEB DEVELOPER)

3/203, Vanagiri, Sirkazhi | +91-8110859072 | anandhans072@gmail.com

PROFILE SUMMARY

Experienced IT professional with over 3 years of expertise in systems administration and a keen interest in transitioning to web development. Adept at managing and configuring complex IT environments, providing global end-user support, and optimizing network performance. Proficient in using a range of tools including Desktop Central, Mobile Device Manager Plus, and AD Manager Plus, with hands-on experience in deploying and managing both Linux and Windows operating systems.

Skilled in configuring AD servers, DNS, DHCP, and implementing network solutions, with a solid foundation in troubleshooting and system optimization. Eager to leverage my robust technical background and passion for technology to develop innovative and efficient web solutions. Actively pursuing web development skills in HTML, CSS, JavaScript, and modern frameworks to complement my IT expertise and contribute to dynamic web projects.

Note:

Currently, I am working as a System Administrator at Zoho Corp Private Limited. Now, I am looking forward to a career change as a Web Developer and seeking opportunities to transition into this role. As a beginner in web development, I am eager to explore chances that allow me to apply my existing technical skills while expanding my knowledge in web technologies. With a strong foundation in IT and system management, I possess problem-solving abilities, attention to detail, and a drive for continuous learning.
